### Program

Join us for this 3-session workshop series to examine functional life skills programming domains for Literacy and Numeracy. We will select individual program outcomes and collectively curate age-appropriate strategies, resources and assessments for Gr. 4-12. An exemplar of the desired end product is available by clicking [here](#) for your reference. Participants are asked to bring shareable documents, referenced resource texts, links to websites, classroom best practices or any other resources that will contribute to the collective work.

At the end of the series, school teams will have access to the developed scope and sequence document as a guide to assist in building individual student program plans at any grade level to best support individual student growth and development.

Session topics are as follows:

**Session 1: Wellness: Healthy Relationships (Friendships)/Sexual Health**

**Session 2: Functional Literacy: Reading Comprehension**

**Session 3: Functional Numeracy: Time**
