Program

Inspire students to think like mathematicians and scientists using ExploreLearning Gizmos! You will experience a modeled mathematics lesson using online simulations. Time will be provided to search for and investigate Gizmos that align with your K-6 Math and Science Curriculum. You will learn the basics of navigating the Gizmos teacher dashboard and have the opportunity to ask questions about the teacher and student lesson resources.

Presenters

Karen Blumhagen

Karen has observed firsthand the power of online simulations for building inquiry skills and concept understanding. For fifteen years, she has used Gizmos to engage her students in their learning and is excited to help teachers use Gizmos with their students too! Karen cherishes and celebrates the unique learning communities that K-12 schools have to offer. She has thirty-plus years of experience as a classroom teacher and administrator in rural Alberta. Karen is in her second year with ExploreLearning.
