Program

Did you attend the successful *Do You Speak Tech? 1.0* PD event in 2016?

Participants at that event were overwhelming in their request for a follow-up session.

SLIC's response? **Great idea!**

The Second Languages and Intercultural Council (SLIC) of the Alberta Teachers' Association is thus offering a FREE hands-on professional learning opportunity focused on playtime with the "Best of the Best" learning technologies for the second language classroom. Great news: even if you missed the 2016 event, you can still 'play' along!

This session is BYOD (Bring Your Own Device) as well as an extension cord/powerbar if needed.

Please note that laptops, Chromebooks, tablets, etc. will not be provided. There will be lots of active learning in this session, so you will need your device!

Teachers are required to become a SLIC member to attend. Follow this link: <https://www.smores.com/bt7et>

Lunch included. Please do not bring outside food/drink into the venue.

Presenters

Norman Sieweke & Julie Marko

Norman and Julie are second languages consultants. Both have extensive experience working with integrating innovative technologies into the L2 classroom.

Registration Notes

This session is BYOD (Bring Your Own Device) as well as an extension cord/powerbar if needed.

Please note that laptops, Chromebooks, tablets, etc. will not be provided. There will be lots of active learning in this session, so you will need your device!
