Program

Are you looking for an opportunity to develop CTF challenges? This workshop will provide the opportunity to:

- develop CTF challenges
- collaborate with other teachers and the CTF team from Alberta Education
- explore the resources available on the [CTF website](#)
- discuss CTF classroom assessments.

CTF Challenges can be developed based on current classroom activities/projects, passions and interests, or new ideas. Create your own, or work with colleagues. Come with a concept that you would like to develop into a challenge. **Bring an electronic device that will allow you to access the internet and work with word documents.**

Come with a concept, embrace the challenge.

Please bring a copy of any CTF Challenges already created in your school.

Presenters

Dave McCann

Dave McCann is the Senior Manager with Alberta Education, responsible for Career and Technology Foundations (CTF). Since joining Alberta Education in the summer of 2012, he has been part of the collaborative process with educational partners to develop the CTF Program of Studies. He is excited about the potential of CTF to engage teachers and students in relevant, hand-on learning experiences related to career exploration.

Chantal Collin

Chantal Collin is responsible for the French portion of CTF; Fondements en carrières et technologies. She started a secondment from Fort McMurray Public school District in September 2017 and is enjoying taking part of the collaborative development of the CTF Challenges in both official languages. She is looking forward to accompany teachers exploring and discovering this new curriculum that provides flexibility, integration, exciting hand-on experiences and create situation to help students explore their interests and passions that will support them in a possible career choice.

Registration Notes

Please bring a copy of any CTF Challenges already created in your school. Bring an electronic device that will allow you to access the internet and work with word documents.
