Program

Strategically blending online content with a classroom experience, Flex, our blended eLearning delivery platform, allows training to be more effective and efficient. Flex is the culmination of our eLearning initiatives and gives you the ability to use whatever time you have available in a way that best fits you and your organization. Providing flexible learning options for both Certified Instructors and participants, Flex empowers individuals by allowing them to choose when to learn—it doesn't matter what time it is. If you're a night owl or an early bird, you just need to log on and start learning.

Our *Nonviolent Crisis Intervention*[®] training program with Flex saves you one day away from your organization. You can obtain, recertify, or upgrade your CPI certification in three days rather than four. If you already have upgraded your certification and are due to renew, you need to attend just the first day of the program.

After registering, you'll receive instructions for taking the online portion of the class which is a prerequisite to the classroom portion. Your experience begins by completing the **two to three hours** of online learning before coming to the classroom for the days and the times listed above.
